Work Experience

- sep 2024 – **Amazon**, *Applied Scientist Intern*, Luxembourg.
feb 2025 I focused on building LLM-based evaluators for the faithfulness of summaries.

Education

- 2020–present **University of Oxford**, *DPhil in Statistics*, United Kingdom.
○ Research topic: reinforcement learning.
○ Supervisors: Patrick Rebeschini, George Deligiannidis.
○ Expected graduation date: April 2025.
- 2019–2020 **University of Oxford**, *MSc in Statistical Sciences, Distinction*, United Kingdom.
- Relevant courses: algorithmic foundation of learning, advanced topics in statistical machine learning, advanced simulation methods.
- Project: as a team, we were tasked to compete in a supervised learning Kaggle challenge, based on a dataset of about one million entries, among the MSc candidates. We used Python with scikitlearn and pythorch to select and train the model with best prediction and pandas to analyze the dataset.

- 2016–2019 **Università di Roma “La Sapienza”**, *BSc in Statistics, Economics and Finance, 110/110 summa cum laude*, Italy.
- Relevant courses: descriptive and inferential statistics, statistical machine learning, econometrics, time series analysis, official statistics, probability, stochastic processes, calculus, stochastic calculus, linear algebra, linear programming and convex optimization, financial mathematics, micro/macroeconomics, monetary and international economics, game theory.
- “Report on the economic situation of Netherlands”, used R for data analysis, OECD and International Monetary Fund as information sources. Supervisor: Stefano Fachin.
- Thesis: “Results on the drifted elastic Brownian motion”. Supervisor: Enzo Orsinger.
